Central Region*-- North Carolina
2003 Youth Tobacco Survey (YTS)

MIDDLE SCHOOL FACT SHEET

The North Carolina YTS includes data on the prevalence of cigarette and other tobacco products as well as information on tobacco use, environmental tobacco smoke (ETS), cessation, pro-health media, tobacco advertising, school tobacco prevention education, community participation, and access and availability of tobacco products. These areas are critical components that North Carolina should include in a comprehensive tobacco control program.

The North Carolina YTS was a public school-based survey of students in grades 6-12, conducted in 1999, 2001 & 2003. A multi-stage cluster sample design was used to produce representative data of middle and high school students for all of North Carolina. Schools were selected with the probability proportional to enrollment size. Classes were randomly selected and all students in selected classes were eligible to participate. The 2003 YTS central region middle school response rate was 97.3%, the student response rate was 75.5% and the overall response rate was 73.5%. A total of 947 central region middle school students participated in the North Carolina YTS in 2003.

Prevalence

36.7% of students had ever used any tobacco product (White = 33.5%, Black = 41.8%, Hispanic = 42.7%)
28.2% of students had ever smoked cigarettes (Male = 28.7%, Female = 27.7%)
13.7% currently use any tobacco product (White = 13.1%, Black = 13.2%, Hispanic = 19.3%)
9.0% currently smoke cigarettes (Male = 9.7%, Female = 8.2%)
4.5% currently use smokeless tobacco (Male = 7.5%, Female = 1.5%)

Environmental Tobacco Smoke (ETS)

40.52% live in homes where others smoke
48.9% are in the same room as others who smoke during the week
62.27% think smoke from others is harmful to them

Cessation – Current Smokers

45.6% want to quit smoking
50.9% attempted to stop smoking in the past year

Pro-health Media vs Tobacco Advertising

81.4% saw or heard anti-smoking media messages in the past month
18.67% have an object with a tobacco brand logo

School

47.81% were taught the dangers of tobacco
2.5% smoked on school property in the past month

Community

19.6% participated in a community event to discourage tobacco use

Access and Availability- Current Smokers < 18 years old

5.5% buy cigarettes in stores
71.7% who bought cigarettes in a store were NOT refused purchase because of their age
