

Surveillance Update

N.C. Tobacco Prevention and Control Branch - Surveillance and Evaluation Team

August 2005

2003 N.C. Youth Tobacco Survey: ETS Exposure

Percentage of N.C. middle and high school students who report having been in a room with someone smoking a cigarette within the past 7 days, by gender; N.C. YTS, 2003

Percentage of N.C. middle and high school students who report having been in a room with someone smoking a cigarette within the past 7 days, by grade level; N.C. YTS, 2003

Percentage of N.C. middle and high school students who report having been in a room with someone smoking a cigarette within the past 7 days, by race/ethnicity; N.C. YTS, 2003

Percentage of N.C. middle and high school students susceptible to start smoking, by grade level: N.C. YTS, 2003

Weighted to provide estimates representative of the public middle and high school student population; Persons having been in a room with someone smoking a cigarette within the past 7 days. Specific data on 95% confidence intervals is at the N.C. YTS website.

*Caution when interpreting. Results based on small sample size.

The N.C. Youth Tobacco Survey (N.C. YTS) provides a critical source of public health data for understanding the scope of the tobacco problem and measuring progress toward overall goals among youth. N.C. YTS is a comprehensive statewide representative sample of more than 7,000 middle and high school students. Every other year a core set of CDC tobacco-related questions are asked. In addition, states add questions related to local program factors. In 2003, the TPCB added questions regarding media, community participation and secondhand smoking attitudes. In 2005, N.C. YTS will try to over sample in a few counties to provide county level YTS data. The sampling scheme is now intended to generate significant numbers for regional data (Mountains, Piedmont and Coast). Caution should be used in interpreting results when only a small number of respondents have answered the question. See the N.C. Tobacco Prevention and Control Branch website for more information:
